Conveyor technology from PAUL GROTH Mühlenbau

Trough screw conveyors  [2]	Tubular screw conveyors  [3]	Dosing of bulk material  [4]
Screw dischargers  [5]	Chain conveyors  [6]	Bucket elevators  [7]
Feeding stations	Loading bellows	Gate valves

 <p>[8]</p>	 <p>[9]</p>	 <p>[10]</p>
Pneumatic conveying	Crushers	Mixers
 <p>[11]</p>	 <p>[12]</p>	 <p>[13]</p>
JACOP Pipeworks	Used Machines	
 <p>[14]</p>	 <p>[15]</p>	

As a medium-sized, family-owned company we continue, as we have always done in the past, to manufacture stand-alone machines and fit complete systems from the handling and processing of bulk materials to the final product.

Conveying technology made by PAUL GROTH is available in basic configuration, which can be designed in size and accessories with out modular system.

The standard modular system presented here provides the foundation on which we are able to develop individual machines just for you.

We supply all our products for zone 22 potentially explosive atmospheres according to ATEX too.

The used machines normally can be delivered short-term or if wanted after overhaul or modification and can be used rapidly in existing plants for replacement.

We look forward to your call.
