

OUR FITTERS ARE VERSATILE

Our fitters are versatile

INSTALLATION, SERVICE, REPAIR AND OPTIMIZATION

Right from the start of our company part of our tasks is to install and maintain machines and plants for bulk material.

PAUL GROTH has own assembling teams, who carry out all necessary works professional and efficiently.

It's important for us that our fitters are long-term working for us. This enables them to get expert knowledge and allows us to send them as specialists for conveying technology to our customers.

Our assembling teams are well equipped. They get the necessary machines and components from our production and our stock as soon as possible.

Installation in the food industry, grain industry and non-food industries:

Planning of installation work by our installation team

Installation of complete plants or stand-alone machines

Conversion installations, modernisation and upgrading of plants

Disassembly and reassembly when machines and plants are being moved

Disassembly of plants and plant sections, and maybe disposal of them

Maintenance and repairs

Please call us, we can assist you in carrying out project fast and uncomplicated.
